## Xpress Sports/Daily Reconciliation Process

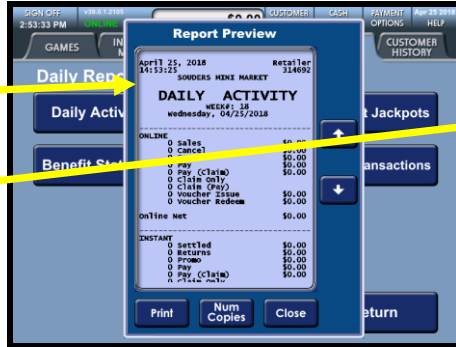

Dear Valued Retailer,

With the recent addition of Derby Cash Horse Racing to our Xpress Sports lineup, here is a reminder on calculating your daily sales. Xpress Sports data displays on a separate Daily/Weekly Activity report than all other game sales. When calculating your daily sales, you must manually add the total from the Xpress Games Daily Activity report to the totals from the other reports you use. Follow the process below to access Daily Activity reports:

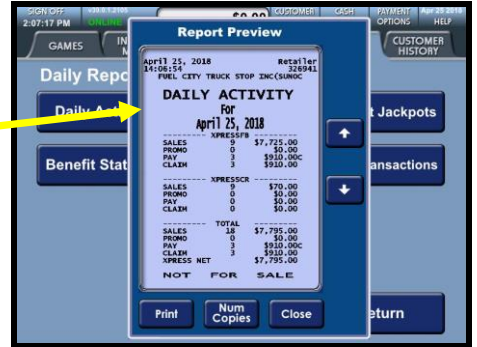

### WAVE Daily Reports

### WAVE Daily Activity

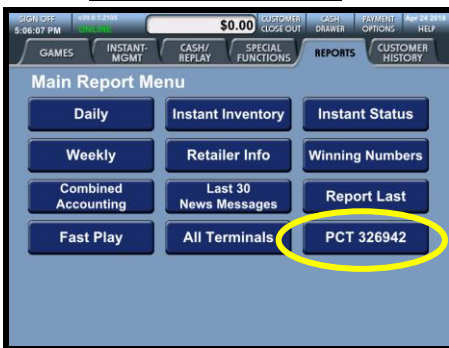

### WAVE Xpress Games Daily Activity

If you also have vending equipment selling Xpress Sports, follow the same procedure for each piece of equipment:

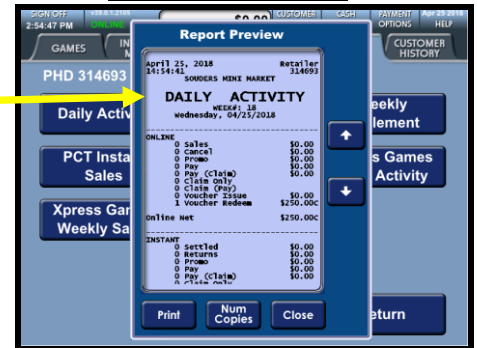

### Main Report Menu

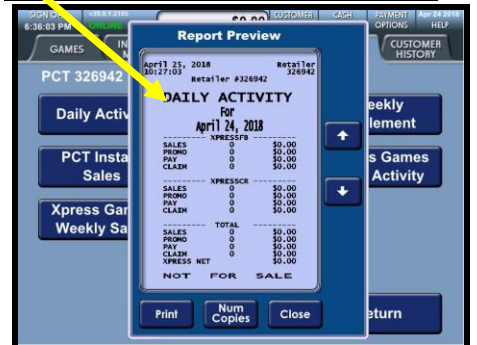

### PHD Daily Reports

### PHD Daily Activity

### PHD Xpress Games Daily Activity

### \*\*\* IMPORTANT NOTE \*\*\*

The Combined Weekly Settlement report automatically includes Xpress Sports promotions in the total Online Due, but does not include a line item for them. Please refer to the Xpress Games Daily/Weekly Activity reports for a detailed breakdown of promotions.

If you have questions about this process at any time, please call your District Sales Representative. We appreciate your time, commitment and continued partnership as we work to improve the way we do business. Thank you for your patience and understanding.

Best in selling!
